VENTILATED ENCLOSURES

The 1100 VE ventilated enclosures are used for general purposes whenever the contents require ventilation. The enclosures are made of high quality 18 GA steel. There are knockouts at the top and bottom, and all three sides are fully ventilated. Enclosures are also available

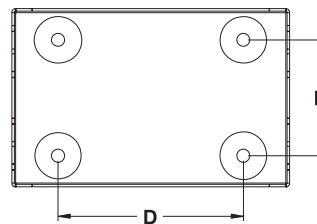

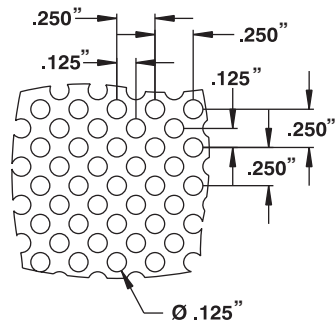

non-ventilated (add suffix "N" to catalog number). Mounting holes are provided in the back and the covers are fixed with screws. Enclosures are finished with ANSI/ASA 61 smooth gray heat fused powder paint, electrostatically applied on a pretreated base (other colors available).

CSA Certified
NEMA/EEMAC 1 / IP30

Refer to p.734 to validate choice of substrate for the application
