STAINLESS STEEL HINGED WIRING TROUGHS (BOLT-ON FEET)

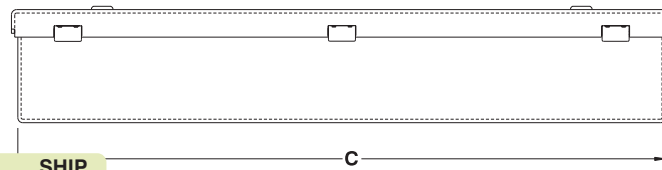

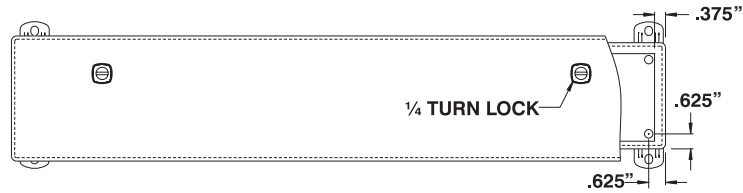

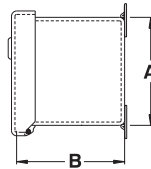

The 1412 CHSS stainless steel hinged cover oil and dust tight troughs are used indoors or outdoors to protect the enclosed controls from dust, dirt, oil and water splashing. The box and cover are made of high quality 16 GA (Type 304) stainless steel, with all seams continuously welded.

The opening has a flange around all sides, which increases rigidity and ensures complete contact with the poured, high quality, oil resistant seamless gasket. The door is secured by convenient 1/4 turn locks and can be opened over 180°. Internal mounting holes are provided and a wall

mounting kit is supplied. The enclosures are unpainted and brushed smooth.

**CSA Certified / UL Listed
NEMA/EEMAC 4X / IP66**

**Refer to p.734 to validate
choice of substrate for the
application**
