ALUMINIUM SCREW COVER ENCLOSURE (BOLTED FEET)

The 5412 EALSC aluminium screw cover enclosures are used indoors or outdoors to protect the enclosed controls from dust, dirt, oil and water splashing. The box and cover are made of high quality type 5052 H-32 aluminium. with all seams continuously welded. The opening has a curled lip around all sides to increase rigidity and prevent dripping water from entering the enclosure when

the door is open. A high quality, robotically poured-in-place, seamless gasket ensures a complete and durable water tight seal. The enclosure can be internally or externally mounted using the included die cast wall mounting feet. These feet have oblong holes to facilitate installation. **Each enclosure comes complete with a 14 GA galvanized inner panel**, which mounts on

weldnuts. Enclosures are finished with heat fused powder paint, electrostatically applied on a pre-treated base. Box is ANSI/ASA 61 smooth gray. Inner panel is galvanized (other colors available). **CSA Certified / UL Listed NEMA/EEMAC 4X / IP66**

Refer to p.734 to validate choice of substrate for the application

NOTE: - TWO MOUNTING FEET IF B=4" OR LESS
