ZCS1-70/71 & ZCS1-120 Series High Current Solenoids

Contact: Fred Harmon
Vice President, Sales & Marketing
(949) 831-5000

Aliso Viejo, California – American Zettler Inc. introduces the ZCS1-70/71 and ZCS1-120 Series Solenoids, the latest addition to our line of quality products. The ZCS1-70/71 and ZCS1-120 both are capable of handling high currents of up to 100 Amps. The ZCS1-70/71 features SPNO or SPDT contacts, an enclosed dust-resistant case, longer encasement to allow lower heat rise and sensitive operation (ZCS1-71), coil voltage ranging from 6VDC to 48VDC, and the option of isolated or grounded coils. The ZCS1-70/71 offers two duty cycles (continuous and intermittent) with an approximate power consumption of 10W and 25W, respectively.

The ZCS1-120 Series features weather resistant casing, SPNO contacts, coil voltage ranging from 6VDC to 48VDC, and versatile mounting/termination options. The ZCS1-120 also offers two duty cycles with approximate coil power consumption of 8.1W (cont.) and 14.4W (intermittent). The ZCS1-120 is capable of handling low current requirements as well as high currents. Both the ZCS1-70/71 and ZCS1-120 are manufactured in our ISO9001 factory for optimum performance and reliability.

For pricing please contact the factory.

PRODUCT PROFILE

Product	ZCS1-70/71 and ZCS1-120 Series
----------------	--------------------------------

Product Description	High Current Solenoids
----------------------------	------------------------

Features/Benefits	Isolated or Grounded Coil termination High current capacity Dust-resistant case (70/71) or Water-resistant case (120) Continuous or Intermittent Duty Cycles
--------------------------	---

Product Applications	Emergency Vehicle Accessories, Golf Cart Controls Bus Accessories, Handicap Lifts, Utility Winches Motorized Wheelchairs, Marine Trim Controls Forklifts, Lawn & Garden Equipment
-----------------------------	--

Product Availability	Upon request
-----------------------------	--------------

Product Price	Contact factory
