

REED SWITCHES

REED SENSORS

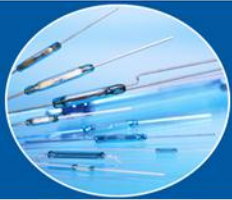

REED RELAYS

Snow Groomer Vehicles Application Write Up

Products for tomorrow.

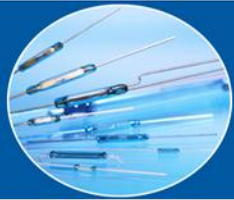

Snow Groomer Vehicles Application Write Up

Reed Technology –Sensor Solutions Advantages

- Increased safety
- Enhanced comfort and convenience
- Absolute reliability
- Robust design
- Improved efficiency
- Superior innovation
- High flexibility
- Excellent quality
- No power consumption
- Long life expectancy
- Hermetically sealed

We develop customized solutions for each customer

Snow Groomer Vehicles Application Write Up

MK02

Ferromagnetic Metal Sensor

- The MK02 has a wide range of applications
- No external magnet required. Uses the metal target being detected to change states
- Available in lead form and through hole PCB form

MK27 / M27

Environmentally Sound & Rugged Aluminum Design!

- Reed Sensor is magnetically activated
- Robust aluminium housing is environmentally sound
- Protection from vandalism and sabotage –Cable in metal protective jacket
- Actuator magnet is included

Applications

- Metal doors at Snow Groomer cabins
- Piston retraction sensing
- Crane booms
- Snow Groomer Vehicles Equipment
