Products for tomorrow...

Snowmobiles Application Write Up

Reed Technology –Sensor Solutions Advantages

- Increased safety
- Enhanced comfort and convenience
- Absolute reliability
- Robust design
- Improved efficiency
- Superior innovation
- High flexibility
- Excellent quality
- No power consumption
- Long life expectancy
- Hermetically sealed

We develop customized solutions for each customer

Snowmobiles Application Write Up

MK20/1 Ferromagnetic Metal Sensor

- The MK20/1 has a wide range of applications
- Flat side indicates maximum sensitivity
- Small size
- Other cables, connectors and colors available
- Three operate sensitivities available
- A choice of cable terminations and lengths are available

Applications

- Suspension detection, Kill switch
- Piston retraction sensing
- Throttle sensor
- Snowmobiles, quads, motor cycles, off road buggys, ATV's
- Position and limit switch
- Pneumatic or hydraulic actuator position
- Indication and end travel limit switch
- Level sensor
